The Inspector General of Education

Sir,

With reference to your letter No. 17353/ 776 dated 28th April 1915 replying to an enquiry concerning the purchase of certain books and articles of furniture for the Government Commercial school, I am directed to observe that there has evidently been some misunderstanding. The object of Government in addressing the communication, to which your letter is a reply, was that you should give satisfactory explanations on the points raised or modify your proposals in the light of the observations contained in that letter.

You are no doubt aware ~~I am to state~~, that when the sanction of Government is required for any action, it should be assumed that Government have to - - satisfy themselves that the action is justified by adequate reasons and that the grant of sanction is not a mere formality. Even though Government have no doubt that Heads of Departments make recommendations after due consideration, still Govt ~~they~~ expect that sufficient materials should be placed before them to enable them to form their own independent judgement and satisfy themselves that the recommendations of the Heads of ~~the~~ Departments adequately meet the requirements of the case and do not involve unreasonably large expenditure. I am therefore to request that a suitable reply may be kindly sent in accordance with the observa-

tions of my letter No. 3971 dated 12th April 1915.

Inspector-General of Education in Mysore.

To

C.S. Balasundaram Iyer, Esq., B.A.,
Secretary to the Government of
His Highness the Maharaja of Mysore,
Departments of Education and Agriculture,
Bangalore.

SIR,

With reference to your letter No.4934/Edn.12-14-213 dated the 20th May 1915, regarding the purchase of certain books and articles of furniture for the Government Commercial School, Bangalore, I have the honour to state that the school is a growing institution which in my opinion, has to be equipped with all the books on the subjects taught therein. It has also been resolved to start this year Advanced classes in some of the Commercial Subjects. Besides, most of the books recommended are technical and they cannot be had in any of the public libraries of the City.

As regards the articles of furniture referred to, I beg to state that the list contains such articles as are necessary for the use of the teachers in the schools, those required for the use of the students being entirely omitted. having regard to the building in which the school is located.

I have the honour to be,

Sir,

Your most obedient

M. Shama Rao.
